

ARCHITECT'S Zone

We invite you to participate in our partnership program "Architect's Zone". This program was created with the goal of supporting interior designers and architects, offering a range of benefits and incentives that will help you in your daily work and allow for additional profit.

How does it work?

1. Discounted purchases:

- Partners purchase products from our company at discounted prices.
- Constant discount: 20% on every order.

2. Recommendations for clients:

- You propose our products to your clients during interior design projects.
- Clients make purchases at retail prices, directly from you.

3. Profit for you:

- The difference between the retail price and the discounted price goes into your pocket.
- Example calculation:
 - For a recommendation: 20% discount on a product with a retail price of 1,400 \$ = 280 \$ profit for you.
 - For another recommendation: 20% discount on a product with a retail price of 10,000 \$ = 2,000 \$ profit for you.

Additional benefits:

- Attractive offers: 20% discount on all products for architects.
-

HOW TO START?

Contact us: Call or send us an email through our website. On the same day, we will send you a catalog of our products so that you can introduce your clients to our wide range of offerings.

Start cooperating – After signing up for our program for architects and interior designers, you will receive a **special architect number**, which will be your key to accessing a 20% discount on our products. Simply provide this number when placing an order, and we will manually apply the discount.

By establishing a formal referral program with attractive incentives, we create a win-win situation for both parties: for you and our company. You benefit from additional financial rewards and the opportunity to expand your portfolio with unique products, while your clients receive top-quality interior solutions. Meanwhile, we see an increase in referrals, which drives our mutual growth and success.

We invite you to collaborate and join the "Architect's Zone" program. If you have any questions, we are at your disposal.
